THE charming operetta Boccaccio was played at the Theatre Royal last night by the Stanley Company. There was a falling off in the attendance, which was all the more regrettable as there was a distinct improvement in the singing and acting all round. Miss Cissic Denver, to whom the leading part was allotted, was in much better voice than she has been for a few nights and was repeatedly applanded for her charming singing and clever acting. Well-supported by the other members of the Company the performance was a success. The everfresh 'Varieties' will be presented to his patrons by Mr Stanley to night, and as a change of programme is promised there ought to be another bumper house. New dances will be introduced by Miss Mildred Trigge, Miss Tilly Lake, and Miss Florrie Stophenson, the three clever dancers of

THE WORK OF THE REGISTRAR GENERAL'S DEPARTMENT.

The N. C. Daily News has the following editorial comments on the work of the Registrar General's Department :- An impression got abroad, it would seem, at Hongkong that the lot of their genial Registrar-General was a poculiarly happy one. It is true that upon him occasionally devolved the painful duty of causing his fellow-citizens to be fined for neglecting to register their babies' births. He had something, too, to do with the Tung-wah Hospital and with another Chinese institution still less easily pronounced. Except for the unpleasant, but fortunately for him very rare, on 'Recent Russian Archaic Researches' transactions he was at liberty to devote the adjacent to Corea and remarks on Corean for which he had, as everyone gratefully with a translation by Mr Korylin of an a sinecure, must have been rudely shaken this paper Mr Margarieff says that in the

Speaking generally, the Ordimnee empowers the Registrar to interfere in all cases where he has reason to suspect that a girl is being detained against her will for immorel purposes, while it aims at the suppression of unregistered houses of ill fame. The proper carrying out of this most excellent, and (pace the faddists) righteous ordinance has devolved upon Mr Lockhart and his assistants an amount of work that is tru'y surprising -or would be, if we did not know how deeply rooted among the Chinese is the idea that a girl is merely a chattel, which her parents may sell, and other people may buy, at their will and pleasure. In this connection Mr Lockassistance given him by the Po Leung-kuk, the Hongkong Chinese Sciety for the Protection of Women and Children. But for their co-operation, lie observes, the work of restoring women and girls to their relatives could not be performed so effectively.
